

# Electronic Commercial Reporting

ACCSP & Maryland DNR

The Maryland Department of Natural Resources (DNR) Fisheries Service, in conjunction with the Atlantic Coastal Cooperative Statistics Program (ACCSP), provides an electronic system for receiving harvest reports from watermen. Online reports are accepted by DNR in place of monthly paper reports. The online system, known as "SAFIS", provides more timely information with less chance of error in reporting and postal delivery.

Commercial watermen using the electronic system will be able to print proof of reporting receipts and will also be able to view and print historic reports. Online reporting is currently available for crab and finfish landings as well as charter logbook activity.

To sign up for online reporting email

Janelle Mueller ([JMueller@dnr.state.md.us](mailto:JMueller@dnr.state.md.us))

or call (410)260-8256 with the following information:

- Full name
- Email Address
- Phone Number
- Address
- License Type and Number
- Vessel Name and Registration Number

*Online Reporting now available through the  
Maryland Department of Natural Resources.*

*Save Time!  
Save Postage!  
Less Errors!*
